IMPORTANT INFORMATION ABOUT ESTABLISHING A RELATIONSHIP: To help the United States Government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who establishes a relationship with the financial institution. What this means for you: When you establish a relationship, the financial institution will ask for your name, street address, taxpayer identification number and other identifying information. For individuals, the financial institution will also ask for date of birth. The financial institution may ask to see your driver's license or other identifying documents. Thank you for your cooperation.
